B-26-040669/13	Mega Mass Chocolate
Matrix:	Meals
Sampling: (c)	GOLDTOUCH NUTRITION
Packaging:	Original package
Number of containers:	2
Lot number: (c)	6GAEEE91
Package condition:	Conform
Sample condition:	Conform

Parameter	Result	Unit	m	M
Protein content (Nx6.25)	31.8	% m/m		
SOP: HEP42 (Q-EXT) - Standard: Own method, Kjeldahl (titrimetry)				
Method: Kjeldahl (titrimetry)			Start date: 14/09/2026	
Arsenic (As)	< 0.034	mg/kg		
Cadmium (Cd)	0.019	mg/kg		
Lead (Pb)	< 0.034	mg/kg		
SOP: FF1S1 (Q-EXT) - Standard: NEN-EN 15763: 2010				
Method: ICP-MS				
Result Comment(s): 1: The reporting limit has been raised due to reduced sample size and/or insufficient dry weight.				
SOP: FF1S5 (Q-EXT) - Standard: NEN-EN 15763: 2010				
Method: ICP-MS				
SOP: FF1SB (Q-EXT) - Standard: NEN-EN 15763: 2010				
Method: ICP-MS				
Result Comment(s): 1: The reporting limit has been raised due to reduced sample size and/or insufficient dry weight.			Start date: 14/09/2026	
Mercury (Hg)	< 0.0017	mg/kg		
SOP: FF1SE (Q-EXT) - Standard: NEN-EN 15763: 2010				
Method: ICP-MS				
Result Comment(s): 1: The reporting limit has been raised due to reduced sample size and/or insufficient dry weight.			Start date: 14/09/2026

Legend

(N)Q	These analyses were carried out by Eurofins Ecca Food Testing Belgium BV and are (not) included in BELAC accreditation 179-TEST
(N)Q-ECCA	These analyses were subcontracted to Eurofins Ecca Environment Testing Belgium NV and are (not) included under the BELAC accreditation 051-TEST
(N)Q-EXT	These analyses were subcontracted to external lab and are (not) accredited. (extra information can be obtained via cs@labecca.be)
(N)Q-EFTB	These analyses were subcontracted to Eurofins Food Testing Belgium NV and are (not) included under the BELAC accreditation 481-TEST
E	analytical method included in admission VLAREL of the performing lab - in case of outsourcing see report under VLAREL in the attachment
W	Laboratory recognized for waste analysis in accordance with: l'arrêté du Gouvernement wallon du 11 avril 2019 établissant les conditions d'enregistrement des préleveurs d'échantillons de déchets et les conditions d'agrément des laboratoires d'analyse des déchets.
U	Expanded measurement uncertainty of the analytical result (i.e. 95% reliability interval) without uncertainty arising from sampling. Other measurement uncertainties can be obtained.
!	not conform (without taking into account the measurement uncertainty)
*	analysis started beyond the expiration date
**	sample date and hour unknown, lab can not guarantee that analyzes were carried out within legal sustainability
m	lower limit
M	upper limit
(1)	estimated value
Conclusion	Any (out-of-specification result) should undergo a risk assessment.
(c)	information provided by the customer

The above results relate exclusively to the above-mentioned test objects. Partial reproduction of this analysis report is only permitted after written permission from Eurofins ECCA btx. Results apply to the samples as received, unless otherwise indicated.
